Infosys React JS Certificate
Springboard

INTERESTS

- Playing games, Research, Music, Traveling

PROFESSIONAL SUMMARY

I am a dedicated and results-driven Full Stack Developer with hands-on experience in both front-end and backend development. I have a strong foundation in creating responsive and user-friendly web applications using HTML, CSS, JavaScript, React, Node.js, and database systems including MySQL and MongoDB. My analytical skills, eagerness to learn new tools, and commitment to writing clean code help me contribute effectively to team project

PROJECTS

Travelling Website
HTM, CSS, JavaScript
Enhanced visually appealing and user-friendly website that promotes tourism. The website provides detailed information about popular destinations, services, and other travel-related resources.

Quiz Game Application
Python, Tkinter
Designed and expanded an interactive desktop quiz game using Python and Tkinter, focusing on user engagement and ease of use.

Data Management System
HTML, CSS (Bootstrap), JavaScript, PHP, SQL
Engineered a robust data management system. The backend was improved in PHP with MySQL integration, while the frontend used HTML, Bootstrap, and JavaScript for dynamic and responsive design.

SKILLS

Languages
Html, CSS, Java Script (Basic), SQL (Intermediate), Python (Basic)

Tools
Git, Postman, VS Code, MySQL Workbench, MongoDB Compass

Platforms
Windows, Linux

Technologies
MongoDB, MySQL, Apache Tomcat, REST APIs

Interpersonal skills
Team management, Decision Making
