PROFESSIONAL SUMMARY

Final-year B.Sc. Data Science student with strong hands-on experience in data analysis, SQL, Python, and Excel. Proficient in data cleaning, visualization, statistical analysis, and reporting to support data-driven decision-making. Completed internship focused on machine learning algorithms and their implementation. Eager to apply analytical skills and technical knowledge as a Trainee Analyst in a growth-driven environment.

EDUCATION

The American College — B.Sc. Data Science
2023 – 2026 (Expected)

- Current CGPA: 8.7/10

Government Girls Higher Secondary School, Natham — Higher Secondary
2023

- Secured 73% in academics

CERTIFICATIONS

- Data Visualization, Great Learning Academy — Completed October 9, 2024
- Get Started with Microsoft Data Analytics, Microsoft — Completed August 30, 2024
- Introduction to MongoDB, MongoDB — Completed August 23, 2025

INTERNSHIP EXPERIENCE

Phoninex Softech — Intern (July 21, 2025 – August 6, 2025)

- Gained practical experience in machine learning algorithms and their implementation.
- Worked with machine learning libraries to develop and optimize models.

SKILLS

- Programming Languages: Python, JavaScript, SQL
- Databases: MongoDB
- Data Analysis & Visualization: Power BI, Excel
- Machine Learning: Algorithm implementation, model development
- Other: Data cleaning, statistical analysis, reporting

PROJECTS

Music Genre Classification and Recommendation System

- Developed a system to classify songs by genre and recommend non-violent songs based on user preferences and past listening behavior.
- Applied machine learning techniques to identify song tempo and user preferences for personalized recommendations.
- Enhanced user experience by filtering and suggesting songs with similar tempo and non-violent content.
