ARUNBALAJI MUTHAMILSELVAN

SYSTEMS ENGINEER, TCS

+91-8667448816 arunbalajimuthamilselvan@gmail.com

PROFILE

Aiming to leverage my knowledge and to develop new skills to successfully fill the required challenges and can be relied upon to help the company achieve its goals.

EXPERIENCE

Oct 2022 - Present

Systems Engineer - Tata Consultancy Services

- Experienced in handling production incidents within the banking domain, analyzing root causes, and resolving escalated issues to maintain application performance and uptime.
- Scheduled and monitored production BAU batches using Ab Initio web interface tools such as Control center and Operational Console, ensuring timely execution, smooth batch processing and minimal failures.
- Investigated and responded to batch failures by performing root cause analysis, and tracking the incident tickets via ServiceNow, ensuring SLA compliance and client satisfaction.
- Experienced in executing pre- and post-patch validation tasks including mount checks, server sanity validations, and manual job execution via Ab Initio commands to ensure production readiness.
- Managed COB drill server activities, ensuring accurate replication of production server roots and mount points to COB environment for business continuity readiness.
- Worked with Oracle SQL queries to analyze, extract and share data exports as per business needs.
- Developed Python scripts to automate repetitive Excel processes, significantly reducing manual effort and operational errors.

Nov 2021 - Sep 2022

Assistant Systems Engineer - Tata Consultancy Services

- Acted as L2 support contact for clients, investigating job failures and coordinating resolution to maintain system stability and SLA compliance.
- Involved in migrating work items from lower environments to production using Jenkins, ensuring controlled and seamless deployments.
