ABISHEK V P

+91 8610022871 | abishekvp7@gmail.com | linkedin.com/in/abishek-vp | github.com/abishekvp-prog

Full Stack Developer (Java & Angular)

Education

- **Kingston Engineering College, Vellore** 2021 – 2025
  B.E. in Computer Science and Engineering *CGPA: 8.7/10*
- **Sunbeam CBSE Schools, Vellore** 2021
  Class XII (CBSE) *82%*

Experience

- **Associate Consultant – Full Stack Developer (Java & Angular)** Jun 2025 – Present
  Intellect Design Arena, Chennai
  - Engineered enterprise-scale BFSI banking platforms using Java, Spring Boot, and Angular; optimized distributed microservice integration supporting millions of users and 3k+ concurrent sessions across critical digital transaction workflows.
  - Redesigned service orchestration frameworks and database communication layers; accelerated release velocity by 30% while strengthening modular scalability across 15+ independently deployable financial application components.
  - Refined RESTful and headless API architectures for high-volume environments; reduced transaction latency by 20% and minimized runtime failures by 15% across complex digital banking transaction pipelines.
  - Strengthened CI/CD deployment pipelines and automated validation controls; delivered zero production defects within owned services while sustaining regulatory compliance across enterprise BFSI operational standards.
- **Web Developer Intern** Aug 2024
  InfoView Technologies Limited, Chennai
  - Optimized backend integration mechanisms using Spring Boot, Java, and SQL; resolved inefficient query execution patterns improving data retrieval performance by 35% across high-traffic application service layers.
  - Enhanced REST API request handling and server-side execution workflows; decreased response latency by 25% and reduced production defect rates by 12% within core transactional processing modules.

Technical Skills

- **Languages**: **Java, Python, SQL**, JavaScript, TypeScript, HTML, CSS
- **Frameworks**: **Spring Boot**, **Angular**, Microservices, RESTful APIs
- **Databases**: MySQL, PostgreSQL
- **Tools**: **Git, GitHub**, Jira, Postman, **Jasper Studio**, PowerBI
- **Libraries & AI**: Machine Learning, NumPy, Pandas, Scikit-learn
- **Concepts**: **Object-Oriented Design**, Data Structures & Algorithms, Cloud Deployment, CI/CD, **Agile Development**

Projects

- **Digitally Engaging BFSI Platforms** | *Java, Spring Boot, Microservices, Angular, SQL* 2026
  - Designed scalable microservice-based BFSI applications with secure RESTful and headless APIs; strengthened transaction reliability and improved operational throughput across 10+ integrated core banking modules.
- **Real-Time Chat Application** | *Java, Spring Boot, WebSockets, Redis, PostgreSQL, ChatGPT API* 2026
  - Built a scalable real-time messaging platform using WebSockets and Spring Boot with Redis caching and MySQL persistence; integrated dynamic AI-assisted responses through ChatGPT API and NLP pipelines to enable contextual conversational support.
- **AI-Based Disease Diagnostic System** | *Python, CNN, DNN, Deep Learning* 2025
  - Developed deep learning diagnostic pipelines using CNN and DNN architectures; achieved up to 90% prediction accuracy while reducing manual clinical evaluation effort by 40% through automated inference workflows.

Certifications

- **Intellect Design Arena** – FinTech Engineer Bootcamp (2025)
- **E&Y (Edunet)** – Web Technologies (2024)
- **PMKVY** – Software Developer Associate (2024)
- **Infosys Springboard** – Agile & DevOps (2024)
- **GUVI** – Java / SQL / Power BI (2023–2024)
- **NPTEL** – Cloud Computing(2023)

Accomplishments

- **Ranked #1 – FinTech Engineer Bootcamp, Intellect Design Arena:** Achieved the highest overall distinction across technical evaluations and project deliveries in an intensive fintech training program.
- **Best Outgoing Student – Kingston Engineering College:** Honored for comprehensive excellence in academics, leadership, innovation, and extracurricular achievements.
