JAWAHAR NAGAR, CHENNAI, TAMIL NADU

Senior React Developer | Full Stack Engineer | React • FastAPI • TypeScript

PROFESSIONAL SUMMARY

Full Stack Developer with 4 years of experience building scalable web applications using React.js, TypeScript, and FastAPI. Strong expertise in frontend architecture, REST API integration, state management, and enterprise application development. Experienced in MSSQL/MySQL databases, performance optimization, and Agile development workflows.

TECHNICAL SKILLS

- **Frontend:** React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux Toolkit, React Hooks, Context API
- **UI Libraries:** Material UI (MUI), Bootstrap, SCSS, PrimeReact, Formik, jQuery
- **Backend:** FastAPI, Python, PHP, REST API Development
- **Database:** MSSQL, MySQL
- **Tools & DevOps:** Git, GitHub, GitLab, BitBucket, AWS EC2, SonarQube, Agile/Scrum
- **Core Concepts:** Microservices, Business Logic Implementation, Accessibility (A11y), Cross-browser Compatibility, Web Performance Optimization

PROFESSIONAL EXPERIENCE

FreeTechCafe Technologies Pvt Ltd

Software Engineer | *March 2025 – Present*

- Engineered a scalable HRMS application using React.js, TypeScript, and Redux Toolkit, supporting complex enterprise workflows and large-scale employee management operations.
- Developed reusable UI components and optimized state management architecture, reducing frontend development effort by approximately 35%.
- Architected and integrated RESTful APIs for real-time frontend-backend synchronization, handling 100K+ employee and transactional records while improving API response efficiency by nearly 30%.
- Collaborated on backend optimization using Python (FastAPI) and MSSQL to enhance data retrieval performance and maintain database integrity for high-volume datasets.
- Implemented code quality and static analysis practices using SonarQube, reducing technical debt and improving long-term maintainability.
- Improved frontend performance through optimized rendering, lazy loading, and efficient API state handling for enterprise-scale datasets.

HEMA'S ENTERPRISES PVT LTD (CavinKare Group)

React JS Developer | *June 2024 – January 2025*

- Developed scalable enterprise React.js applications using Material UI and reusable component architecture for business-critical workflows.
- Delivered integrated solutions using React.js, PHP, and MySQL, ensuring stable frontend-backend communication and application performance.
- Integrated RESTful APIs for dynamic real-time data interaction and optimized frontend rendering for large-scale datasets.
- Collaborated on backend optimization initiatives using FastAPI, MSSQL, and SonarQube to improve maintainability and performance.

WISEWEBTEK

Junior Web Developer | *June 2022 – May 2024*

- Developed ecommerce platforms using React.js with payment gateway integration and real-time order tracking functionality.
- Built and optimized RESTful APIs to improve frontend-backend communication and application responsiveness.
- Implemented reusable component-based architecture and responsive UI development across multiple projects.
- Participated in debugging, feature enhancement, and production issue resolution to improve application stability.

SELECTED PROJECTS

- **Matrimonial Platform** – Developed a React.js-based matrimonial platform with advanced search filters, profile management, and user-matching workflows.
- **CK Pulse (Product Feedback App)** – Built a survey management system with real-time updates, CRUD operations, and role-based admin/user management.
- **Property Management (Dubai Project)** – Developed a property listing platform with API-synchronized data and dynamic pricing management using React.js.
- **E-commerce Engine** – Implemented secure checkout workflows, payment integration, and real-time inventory tracking for ecommerce operations.

EDUCATION & CERTIFICATION

- **Bachelor of Engineering (B.E.):** Jaya Suriya Engineering College (Anna University), Chennai | Graduated: 2018

- **IBM Certified Full Stack Developer:** Specialized in **React.js & Web Integrations**, SLA Institute
