GIDEON ABISHEK S

SENIOR UI/UX DESIGNER • CONVERSION & PERFORMANCE-DRIVEN LEAD FUNNELS

Location: Bengaluru, India | **Phone:** +91-8863937760 | **Email:** gidabishek@email.com | **LinkedIn:** linkedin.com/in/gideon-abishek | **Portfolio:** gideonabishek.com

PROFESSIONAL SUMMARY

Data-driven **Senior UI/UX Designer** with **8+ years of expertise** owning end-to-end user experiences, performant web interfaces, and conversion-focused lead generation funnels. Proven track record of merging user-centered design craft with **conversion rate optimization (CRO)**, **WCAG 2.1 AA accessibility standards**, and **compliance-led design frameworks** across high-volume, regulated sectors (health, legal tech, and enterprise services). Expert in Figma workflows, design system architecture, multi-channel intake flows, and seamless developer/CRM handoffs (Salesforce, Zoho) to drive measurable pipeline growth.

CORE COMPETENCIES & TOOL STACK

UX Craft & CRO	Full-Funnel Lead Gen Design (TOFU to BOFU), Intake Flow Architecture, Friction & Form Abandonment Reduction, CRO-Led A/B Test Specs, CVR Optimization, Mobile-First Design.
Compliance & Standards	WCAG 2.1 AA Accessibility Standards, Compliance-Led UI, Regulated Industry Advertising Constraints (Health / Legal / Insurance / SSDI).
Design & Prototyping	**Figma** (Advanced Variables, Components, Auto-Layout, Dev Mode), **FigJam**, Adobe XD, Framer, Micro-Interactions, Motion Specs.
Research & Analytics	User Journey Mapping, Usability Audits, Hotjar, Maze, UserTesting, Microsoft Clarity, GA4, Mixpanel Data Interpretation.
Dev Handoff & CRM	CRM-Connected Intake Workflows (Zoho, Salesforce), Figma Dev Mode, Zeplin, Basic HTML/CSS Awareness.

PROFESSIONAL EXPERIENCE

UI/UX Designer • Zervvo Technologies Pvt. Ltd.

July 2024 – June 2026 |

- **Architected full-funnel digital assets** and scalable UI components for AI-driven enterprise products, mapping multi-step intake flows and operational journeys across CRM, ERP, and Telephony modules.
- **Engineered conversion-focused user flows** that reduced drop-off rates and form abandonment by streamlining data entry fields and integrating real-time validation patterns.
- **Built and maintained unified design systems** utilizing advanced Figma variables, components, and auto-layout to accelerate multi-brand interface production and dev handoffs.
- **Leveraged UX analytics and research insights** (Mixpanel, usability sessions) to continuously test, iterate, and optimize key user touchpoints for higher engagement and pipeline yield.
- **Collaborated across cross-functional teams** (engineering, copywriters, and performance marketers) to ensure strict adherence to accessibility, brand guidelines, and dev-ready handoff specs.

UI/UX Designer • Stellantis (Client Project)

Nov 2021 – May 2024 |

- **Designed accessible, responsive web interfaces and portals** for global operations, ensuring strict **WCAG 2.1 AA compliance** across mobile and desktop breakpoints.
- **Executed qualitative user interviews, contextual inquiries, and usability audits** to identify UX friction points and eliminate workflow bottlenecks.
- **Developed interactive prototypes and high-fidelity UI components** with detailed motion and micro-interaction specs to guide activation and onboarding flows.
- **Established multi-brand UI design systems and centralized component libraries** to streamline cross-functional development cycles and maintain brand visual consistency.

Digital & Web Designer • Image Minds

Feb 2018 – Jul 2021 |

- Designed high-converting landing pages, marketing funnels, and digital assets, optimizing layout structures, typography, and visual hierarchy for maximal user engagement.
- Conducted UX audits on existing web properties to improve visual navigation, mobile responsiveness, and call-to-action (CTA) clarity.
- Mentored junior designers and led technical workshops covering UI fundamentals, layout grids, accessibility standards, and responsive web design principles.

Graphic & Media Intern • Media / Design Studio

Jun 2014 – May 2016 |

- Conceptualized visual brand identities, typography frameworks, and multi-channel marketing collateral for digital advertising campaigns.

SELECTED ENTERPRISE PROJECTS

Enterprise Lead Capture & Telephony Platform

Owned end-to-end UX strategy, intake form flows, and design system components for an AI-powered portal. Optimized task workflows and CRM-connected fields to minimize user friction.

School ERP & Admin Portal System

Designed multi-persona web dashboards and role-based onboarding journeys focusing on clear data display, WCAG accessibility compliance, and intuitive navigation.

EDUCATION & CERTIFICATIONS

PGDM – Business Management

Great Lakes Institute of Management

B.Sc. Degree

Madras Christian College

Certifications

- Google UX Design Specialization
- Enterprise Design Thinking
- AI for Product Design
