TECHNICAL EXPERIENCE

Full Stack Java Developer Intern **01/2026-03/2026**
Laxsis Technologies *Hapur, Uttar Pradesh*
Technologies: *TypeScript, Spring Boot, Spring Cloud, Hibernate, Spring Security, Docker*

- Developed comprehensive event booking software enabling end-to-end event management from booking to admin access, featuring role-based authentication, staff and worker management, food quantity tracking, and company offer management.
- Gained expertise in microservices architecture, implementing secure authentication systems with session management and refresh tokens, resulting in scalable and maintainable enterprise-grade application.
- Implemented microservices architecture with event-driven communication, multi-database synchronization using PostgreSQL and MySQL.
- Utilized Spring Boot, Spring Cloud, Spring Security, PostgreSQL, MySQL and Docker for building reactive, scalable, and secure microservices-based event management platform.

SKILLS

Languages	Java, JavaScript
Frontend	React.js, TypeScript, Tailwind CSS, HTML, CSS
Backend	Spring Framework, Spring Boot, Spring MVC, Spring Security, JPA, Hibernate, Microservices, REST APIs, JWT Authentication
Databases	MySQL, PostgreSQL
Tools & DevOps	Docker, Git, GitHub, Maven, Postman
Testing	JUnit, Mockito
Methodologies and Concepts	OOP, Agile/Scrum, DBMS

PROJECTS

Hobby Connect–Secure Consumer–Business Engagement Platform **03/2025 |**GitHubLink
Technologies: React.js, Semantic UI, Java, Spring Boot, Spring Boot, Spring Security, JWT, PostgreSQL, REST API, Microservices

- Developed a full-stack platform connecting consumers and small businesses in the Arts, Entertainment, and Recreation sector.
- Built Spring Boot backend exposing REST APIs with JWT-secured endpoints for managing hobbies and business offers.
- Created ReactJS frontend enabling users to explore, save hobbies, and manage offers; integrated JWT authentication for secure API access.
- Implemented transactional workflows, user/business authentication, and role-based authorization.
- Integrated Semantic UI React to create a responsive, user-friendly interface for desktop and mobile.

BankEase–Secure Online Banking Web Application **07/2025|**GitHubLink
Technologies: Spring Boot, Hibernate, React.js, Redux, Material UI, REST API, MySQL

- Developed a single-page React.js frontend fully integrated with a Spring Boot REST API backend for an online banking system.
- Implemented Redux state management to ensure real-time synchronization across components for seamless user experience.
- Built features including user registration/login, account management, fund transfers, deposits/withdrawals, payments, and interactive account flow charts.
- Managed API communication, CORS handling, and secure JWT-based authentication to maintain frontend-backend integrity.

Pulse–Hospital Management Application **11/2025|**GitHubLink
Technologies: React.js, Tailwind CSS, Mantine UI, Redux, Spring Boot, Spring Security, REST APIs, JWT, MySQL, Apex charts

- Developed a full-stack hospital management platform with role-based access for admins, doctors, patients, and staff.
- Implemented core modules: user management, patient records, appointment scheduling, billing, pharmacy, laboratory management, and reporting dashboards.
- Built interactive dashboards and analytics using Nivo and Apex Charts for visualizing hospital operations, resource utilization, and revenue trends.
- Integrated secure JWT-based authentication, encrypted data handling, and responsive UI across devices using React, Tailwind, and component libraries.
- Enabled real-time notifications and communication via email/SMS; optionally supported Kafka-based reminders and Web Socket chat.
- Optimized backend performance with Spring Boot REST APIs and MySQL ,ensuring scalable query handling and server-side rendering.

EDUCATION

B.Tech Computer Science and Technology 2022 -2026
SAGE University, Bhopal
CGPA: 8.46/10.0

CERTIFICATES

Cloud Computing - SWAYAM–NPTEL | IIT Kanpur **July 2025–Oct 2025**
Database Management System–Infosys Springboard **2025**
Software Engineering and Agile Software Development – Infosys Springboard **2025**
Programming in Java – Infosys Springboard **2023—2024**
