Suraj Nyavanandi — MERN Stack Developer — Hyderabad, Telangana

+91-9666635009 | kanusuraj15@gmail.com | github.com/SurajNyavanandi | linkedin.com/in/suraj-nyavanandi

Live Projects: Portfolio | E-Commerce | Invoice Management | AI Chatbot | RVM Bags Business Website

Portfolio: virattom.com **Link →**

Skills

Languages: JavaScript, TypeScript, HTML5, CSS3
Frontend: React, Redux, React Hooks, Angular, NgRx, Bootstrap, Tailwind CSS
Backend: Node.js, Express.js, NestJS, RESTful API Design
Databases: MongoDB, MySQL, Supabase
Security: JWT Authentication,Role-Based Access(RBAC), bcrypt Password Hashing, Email OTP Verification
Tools & Platforms: AWS S3, Git, Postman, VSCode, Swagger, Nodemailer, Vite
Deployment & Hosting: Versal, Render, Netlify

Experience

MERN Stack Developer (Training) **May 2025 – April 2026**

Sharpener *React, Express.js, MongoDB, JWT, Razorpay, AWS S3, Nodemailer*

- Completed comprehensive MERN Stack training (11 months) with focus on real-world application development and industry best practices.
- Built multiple full-stack projects from scratch using React, Express.js, and MongoDB with production-grade code quality.
- Implemented secure JWT-based authentication systems with bcrypt password hashing and role-based access control.
- Designed and developed RESTful APIs supporting CRUD operations with proper validation and error handling.
- Created responsive and interactive user interfaces using React hooks, state management, and component composition patterns.
- Integrated third-party services: Razorpay for payment processing, AWS S3 for file storage, Nodemailer for email services.

Projects

StoreAndManage E-Commerce Platform | *React, Vite, Node.js, Express.js, MongoDB, Swagger, Tailwind CSS, Bootstrap*

- Developed modern, scalable e-commerce platform with Men's Wear, Women's Wear, and Kids Wear categories using React.
- Built responsive frontend using React 19 and Vite with clean, modern UI design using Tailwind CSS and Bootstrap.
- Engineered robust backend API with comprehensive Swagger API documentation for seamless integration and developer experience.
- Implemented category-based product filtering, product management, inventory handling, and comprehensive product catalog.
- Integrated user authentication with JWT tokens, email OTP verification, and secure password reset functionality.
- Implemented role-based access control (user, admin roles) and Nodemailer for transactional email notifications.
- **Live Demo**: shop.virattom.com **Link →**

Expense Tracker | *React, Node.js, Express.js, MongoDB, Razorpay, AWS S3, JWT*

- Built full-stack expense management application for tracking daily, monthly, and yearly expenses with analytics and reporting.
- Implemented secure JWT-based authentication with bcrypt password hashing and token-based session management.
- Created interactive React components for expense visualization, filtering, and reporting using React hooks and state management.
- Integrated Razorpay payment gateway for premium account upgrades with transaction logging and error handling.
- Developed RESTful APIs with pagination, filtering, sorting, leaderboard rankings, and premium membership feature validation.
- Integrated AWS S3 for server-side expense report storage enabling users to generate, download, and manage reports.
- Implemented email-based password reset functionality with secure token validation and transactional email service integration.
- **Live Demo**: expense.virattom.com **Link →**

Invoice Management System | *React, Node.js, Express.js, MongoDB, JWT, Tailwind CSS*

- Enterprise invoice system with role-based access control (SUPER_ADMIN, ADMIN, UNIT_MANAGER, USER).
- Implemented invoice validation: unique invoice numbers per financial year and date sequencing between invoices.
- Built pagination, filtering by financial year, date range, and search by invoice number functionality.
- Designed hierarchical user creation flow with system-generated User IDs (SA1, A1, UM1, U1).
- Implemented timezone validation during login and user profile management with update capabilities.
- **Live Demo**: invoice.virattom.com **Link →**

Education

B.Tech. Electrical and Electronics Engineering — **Graduated: July 2022**
VIGNAN Institute of Technology & Science, Hyderabad — *CGPA: 7.32 / 10*

Intermediate (MPC) — **Completed: March 2018**
SR Junior College, Nizamabad — *Percentage: 93%*

Certifications

- **Wipro Certification in Java/J2EE (2022):** Comprehensive training in Java fundamentals, object-oriented programming, and enterprise application development.
