Java Developer with skills in Core Java, Spring Boot, and backend application development. Strong understanding of OOPs, JDBC, SQL, and problem-solving concepts.

TECHNICAL SKILLS

• *Programming Languages:* Core Java, OOPs, Collections Framework, Multithreading, Exception Handling, SQL

• *Frontend Technologies: HTML, CSS, JavaScript,*

• *Backend Technologies:* Servlets, JSP, Spring and Spring Boot.

• *Databases & Tools:* Oracle, MySQL and Maven.

PROJECT

Sport E-Commerce Website

Technologies: Java, JSP, Servlet, MySQL, HTML, CSS

Designed and developed a full-stack e-commerce web application enabling consumers to browse, select, and purchase sports goods online with ease.

- Implemented MVC architecture using JSP and Servlet, ensuring a clean separation between business logic and the presentation layer for maintainability.
- Built core features including product listing, shopping cart, and user session management using Java Servlet with MySQL as the relational backend database.

EDUCATION
