- Percentage: 66%

Government Higher Secondary School, Salem 2019 – 2020
- SSLC
- Percentage: 78%

TECHNICAL SKILLS

- Core Java & OOPs Concepts
- SpringBoot
- REST API Development
- MySQL
- Postman & CRUD Operations

CERTIFICATIONS & ACHIEVEMENTS

- TCSION Career Edge – Young Professional | Ongoing
- Secured 1st prize for code debugging.
- Typewriting in English with Distinction.
- Idea got selected in Startup-TN.
- Attended the workshop on Blockchain Technology.

PROJECTS

SmartDRM-X
- Built an advanced Digital Rights Management (DRM) platform leveraging blockchain technology and artificial intelligence to provide secure, transparent, and automated protection of digital assets such as documents, videos, music, software, and academic content.
- Implemented blockchain to store immutable ownership records, license agreements, and access transactions using smart contracts.
- Developed cryptographic encryption for each digital asset to ensure uniqueness and security.
- Designed dynamic licensing mechanisms to enable flexible access models including time-based access, subscription control, pay-per-use, and transferable ownership for fair monetization.

DoEmart - Internship
- Developed an e-commerce platform enabling users to easily browse, search, and purchase products online.
- Implemented key features including product listings, shopping cart, secure checkout, and order tracking to deliver a convenient and user-friendly shopping experience.

Student Management System
- Developed a RESTful Student Management System using Spring Boot and MySQL.
- Implemented CRUD operations using REST APIs with JPA and Hibernate.
- Tested all API endpoints using Postman to verify GET, POST, PUT, and DELETE responses.
