Executive SUMMARY

Motivated Computer Science and Engineering graduate with knowledge of Java, Data Structures, Algorithms, Object-Oriented Programming, and Web Development. Familiar with React.js, JavaScript, MongoDB, SQL, and REST APIs through academic projects and internship experience. Passionate about software development, problem-solving, and learning new technologies. Seeking an entry-level opportunity to contribute as a Java Developer while continuously learning and growing in software development.

EDUCATION

Velammal Engineering College Chennai, India
B.E. in Computer Science and Engineering 2022 – 2026 — CGPA: 8.27

SKILLS

Programming Languages: Java, SQL, Python Basics

Java Rechnologies: Core Java, OOP, Collections, Exception Handling, JDBC, Spring Boot (Basics)

Backend& Database: MongoDB, MySQL

Core Concepts: DSA, OOPS, Computer Networks, DBMS, Operating Systems

Tools & Technologies: Git & Github, Linux

Soft Skills: Communication, Problem Solving, Team Collaboration

PROJECTS

Software-Based Smart Irrigation with Plant Disease Prediction (AI/ML project)

- Developed a web application for plant disease detection and smart irrigation recommendations.
- Integrated machine learning models for image-based disease prediction and analysis.
- Improved decision-making for irrigation management through automated prediction and monitoring.

Grocery Mart E-Commerce Web Application

- Developed a full-stack e-commerce application using React.js, Express.js, and MongoDB.
- Designed RESTful APIs for product management, user authentication, and cart operations.
- Implemented JWT-based authentication and database integration for secure user access.

Finance Backend System

- Developed backend services using Node.js, Express.js, and MongoDB for financial data management.
- Implemented secure authentication and authorization using JWT.
- Designed APIs to manage user-specific financial records efficiently and securely.

INTERNSHIP

Full Stack Web Development Intern Nov 2024 – Dec 2024
Virtual Tech Services

- Developed responsive full-stack web applications and ensured smooth frontend-backend integration.
- Built RESTful APIs and managed databases for efficient performance and secure data handling.

CERTIFICATIONS

NPTEL: Programming in Java
Udemy: HTML, CSS, and JavaScript
ICT Program: Introduction to MongoDB
