EDUCATION

KIET GROUP OF INSTITUTIONS Nov 2022-June 2026 SGPA: 8.1, 81%
Bachelor of Technology in Computer Science & Information technology

S. S. Public School July 2022 Percentage:89%
Central Board of Secondary Education (CBSE) - Class XII

S.S. PUBLIC SCHOOL July 2020 Percentage:87.4%
Central Board of Secondary Education (CBSE) - Class X

EXPERIENCE

ShulaTech Solutions (IT Services and IT Consulting) **Technical Intern** **March-2025**

• Developed a full-stack List App using React, Node.js, Express, and MongoDB, Worked with REST APIs and handled database integration for seamless data flow. Identified and debugged issues in application workflows to improve performance.

• Strengthened problem-solving, collaboration, and project delivery skills by completing multiple real-world web applications.

PROJECTS

LangGraph Multi-Agent RAG Chatbot *link* **Mar-2026**

• **Tech Stack:** Python, LangGraph, OpenAI API, ChromaDB, LangChain, Streamlit

• Built a multi-agent Retrieval-Augmented Generation (RAG) chatbot that answers user queries over uploaded PDF documents using semantic search and vector embeddings.

• Designed a structured agent pipeline with retriever, reasoning, and response generation agents using LangGraph orchestration for reliable context-aware responses.

Implemented document chunking, embedding generation, and vector storage using ChromaDB and integrated a Streamlit interface for interactive querying and testing.

KIET_MegaMart (College Bazaar) (Team) *link* **Dec-2025**

• **Tech Stack:** HTML, TailwindCSS, JS, React.js, Mongodb Atlas, Node.js &Express framework

• Developed a campus marketplace where students can list,buy, and sell items easily &Designed a responsiveUI optimized for mobile and desktop.Integrated .

• REST APIs for product listings and order management & Ensured data validation and Implemented JWT authentication and role-based access control .

Job placement prediction model *link* **June-2025**

• **Tech Stack :** Python, Pandas, NumPy, Scikit-learn, ETL workflows Matplotlib, Seaborn, Streamlit Deployment

• Built a machine learning model using Python, Pandas, NumPy, Scikit-learn to predict placement outcomes.

• Implemented and compared Logistic Regression, Decision Trees, Random Forest, SVM, improving prediction accuracy to identify key factors influencing employability.

ACTIVITIES & LEADERSHIPS

Member of Data science & Deep learning Club **March 2023 – Jan 2024**

• Led the planning and execution of a university-wide ML Hackathon with 100+ participants and industry.

• Mentored members in setting up Jupyter environments and implementing foundational data analysis.

TECHNICAL SKILLS

1. LLM & Agentic AI: LangGraph, Retrieval-Augmented Generation (RAG), Vector Databases (ChromaDB), Prompt Engineering, Semantic Search Pipelines, Multi-Agent Workflow Design.

2. Programming&Tools:JAVA, C, Python, Shell scripting, Git/Github, API Testing, REST APIs, Postman, AWS.

3. Data Science & Machine Learning: Pandas, NumPy, Scikit-learn, Model Evaluation, Data Visualization.

4.Certifications & Training: AWS Cloud Practitioner Certified ,Full Stack developer(Linkedin) ,Database 101 (IBM) ,Cisco Certified Network Associate (CCNA). *link*

6.Awards: Solve **300+**Coding Questions ,Secured **600** rank in Tricolar coding contest (Coding Ninza),Google Arcade Program **Champion** Milestone, Hackcode 3.0 Hackathon secured **3rd** position.
