CAREER OBJECTIVE

Aspiring Software Engineer passionate about cloud systems, software development, and problem-solving. Seeking an opportunity to contribute to scalable and high-performance systems while continuously learning and growing in a dynamic environment.

PROJECTS DEVELOPED

1.Water Level Detection using Ultrasonic Technology :

Developed a Water Level Detection System using Ultrasonic Technology by integrating an ultrasonic sensor with ESP8266 for real-time monitoring and wireless data transmission, improving efficiency in water management and reducing manual intervention.

2.Smart Drowning Detection and Alert System :

Designed and implemented a Smart Drowning Detection and Alert System using sensors and microcontroller technology to detect abnormal swimming patterns, enabling real-time alerts for quick rescue actions and enhancing safety in water environments.

3. Drone-Based Fire Extinguishing System with Shooting System :

Engineered a Drone-Based Fire Extinguishing System with shooting system Mechanism to access hazardous areas and deploy extinguishing agents, improving firefighting efficiency while reducing human risk.

4.Urban Biomass Briquette Production System (Semi-Automated):

Developed a semi-automated biomass briquette system to convert dry leaf waste into eco-friendly fuel, reducing pollution and supporting sustainable waste management with improved efficiency and minimal manual effort.

CERTIFICATIONS

- Completed the "Basics of Python" course from Infosys Springboard (February 15, 2025)
- Successfully completed the HP LIFE online course on Data Science &Analytics (October 10, 2024)
- Successfully completed the Udemy certification “Java Basics for Beginners: Learn Coding with Java” on July 29, 2025
- Introduction to Industry 4.0 and Industrial Internet of Things—NPTEL(Elite with 60%)
- Introduction to Internet of Things — NPTEL (Elite with 60%)
- Automation in Manufacturing — NPTEL (Elite with 61%)

WORKSHOP

- Successfully completed a Five-Day SQL Workshop (Sona College of Technology & LnD Solution, Feb 2025).
- Drone Technology (5-day hands-on workshop) — IITDM Kurnool .
- Intelligent Robot with IoT Technology (2-day hands-on) — Praya Labs.
- Mechanical Design (4-hour intensive live workshop) — VCADD Engineering Solutions.

ACHIEVEMENTS

- Organized and actively participated in multiple technical events and paper presentations
- Presented the paper "Drone Based Fire Extinguishing System with Shooting Mechanism" at ICINVENTS-25 International Conference, organized by Sri Krishna College of Engineering and Technology in association with IEEE Madras Section (Nov 2025).
- Served as Organizer of 3D Modeling Event – QUANTUM’24, managing coordination and execution
- Received Academic Appreciation Award in 3rd year at Sona College of Technology
- Participated in Apithon 2025 (Preliminary & Final Round)
- Completed Public Speaking Program – Speakers Forum (Feb 2025)

EDUCATION

- CEOA Matric Higher Secondary School (2019–2020) SSLC Percentage : 95.6%
- CEOA Matric Higher Secondary School (2021–2022) HSC Percentage : 75.3%
- B.E-Mechatronics Engineering, Sona College of Technology (2022–2026) – CGPA: 8.17

TECHNICAL SKILLS

- Programming: Python, Java
- Database & Data Handling: SQL, MS Excel
- Data Analysis & Visualization: Power BI, Data Visualization
- AI & Developer Tools: ChatGPT, Gemini, Claude, GitHub Copilot
- Software Engineering Practices: SDLC, STLC, Agile Methodology
- Engineering & Design Tools: MATLAB, Simulink, SOLIDWORKS
- Cloud & Tools: Cloud Computing, Git, Linux, VS Code
- Testing: Manual Testing, API Testing using Postman, Automation Testing
- Web Technologies: HTML, CSS
- Presentation Tools: Microsoft PowerPoint, MS office

SOFT SKILLS

- Strong Analytical & Critical Thinking
- Effective Communication
- Problem Solving & Decision Making
- Team Collaboration
- Time Management & Multitasking
- Attention to Detail

LANGUAGES

- English
- Tamil
- French
- Japanese

PAPER PRESENTED

- “Augmented Reality and Virtual Reality”— Sona College of Technology

EXTRACURRICULAR ACTIVITIES

- Achieved Green Belt in Karate , demonstrating discipline , perseverance, and self-confidence
